BP is looking for high performing IT leaders to join our Information Technology & Services (IT&S) team. IT&S is one of BP’s largest global functions which touches every part of our business and delivers some of the most advanced technologies in the world. We need talented individuals with the skills and knowledge to take on global challenges and make a real impact to the future success of our business. To join FLP, you must have:

- A post graduate degree, MSc/ MBA, PhD or equivalent
- The ability to demonstrate high levels of achievement in your IT career to date
- A commitment to progress into a senior leadership role, and the programme to help develop your skills

What can you expect from the future leaders programme (FLP)?

- A fast paced programme that combines education with experience and exposure
- The opportunity to work in a global business, in a number of IT professions including business analysis and consulting, project/ portfolio management, architecture and design and digital security
- Two placements in roles with real responsibility to stretch and challenge you every day
- Structured training to accelerate your development
- Exposure to senior business leaders and other networks through mentoring
- Opportunities for career progression

We have the challenges, the opportunities and the scale - do you have what it takes? If you think so, take a look at our [www.bp.com/careers](http://www.bp.com/careers) (Job Id : 39565 and 39004) for more information about FLP in IT&S, how you can apply and future events.

If this isn’t the right programme for you, we also offer opportunities in our graduate and MBA programmes across BP, as well as general vacancies within IT&S. Please visit for more information.
