

UM Wireless Manual Configuration For Windows Vista

Step 1: Go to Start Button and click at “connect to”.

Step 2: Choose wireless network for example “WIFI_08_STUD” or “UM_wifi_ream” and click connect

Step 3: Click “Connect Anyway”

Step 4: Open your internet browser to view the network login web page. Type in your username and password (**for student, use your Perdanamail username & password for login. As for staff the Ummail username & password can be used**) and click “Login”. You should now have a working network connection.
